

Jumpbooster

Business Partner / Reseller Referral System

Onboarding Guide & Terms Overview

Overview

This document outlines the **Jumpbooster Business Partner / Reseller Referral System**, including onboarding requirements, referral mechanics, and applicable terms.

When you register as a **Jumpbooster Business Partner / Reseller**, your account is issued a **unique referral link and referral code**, available in your account dashboard under “**Referral Code.**”

This system enables Business Partners to promote Jumpbooster products and promotions to their customers, earn ongoing store credits, and purchase stock using those credits — **without the requirement to hold inventory upfront.**

Business Partner Onboarding

To participate in the Jumpbooster Referral System, resellers must:

- Complete Business Partner registration with Jumpbooster
- Maintain an active Jumpbooster business account
- Use assigned referral links and/or referral codes in accordance with this document
- Represent Jumpbooster promotions and pricing accurately

Jumpbooster reserves the right to approve, suspend, or terminate Business Partner accounts at its discretion.

Quick Start Guide

1. Promote your unique referral link or referral code to your customer base.
 2. Customers use your link or code to register on the Jumpbooster website and purchase products at **member promotional pricing**.
 3. Every future purchase made by those customers generates **store credits** for your business.
-

How the Referral System Works

Customers who register on Jumpbooster using your referral link or referral code become **permanently linked to your business account**.

- Referral credits are earned on eligible purchases made by linked customers
- Credit values are outlined in promotional material and may vary per promotion
- Customers only need to use the referral link or code **once**, at registration
- Referral links and codes are **not coupon codes** and cannot be applied at checkout

Once linked, customers remain associated with your business unless otherwise determined by Jumpbooster.

Referral Methods

1. Referral Link (Recommended)

Business Partners are encouraged to use referral links in:

- Email campaigns
- Websites and landing pages
- Social media and digital advertising
- Printed marketing materials

When a customer registers using a referral link:

- The customer is automatically linked to the Business Partner's account
- The customer gains access to **Jumpbooster Member Pricing**
- All future logged-in purchases generate referral credits

2. Referral Code

If a customer registers without using a referral link:

- The Business Partner's **Referral Code must be entered during registration**
- This ensures the customer is linked correctly
- Customers must be logged in to access member pricing and promotional offers

Important Information & Limitations

- Each customer may only be linked to **one (1) Business Partner**
- Referral links cannot be reassigned once a customer account is created
- Customers must be logged in for referral credits to be allocated
- Business Partners are responsible for ensuring customers register correctly
- Jumpbooster is not responsible for missed credits due to incorrect registration

Store Credits

Referral credits:

- Accumulate automatically in the Business Partner's store account
- Can be applied toward **future Jumpbooster product purchases**, including stock
- Are not transferable between accounts

Cash Redemption:

If store credits are redeemed as cash, they are paid at **50% of their credited value**.

Jumpbooster reserves the right to amend credit values, redemption options, or eligibility criteria with reasonable notice.

Why We Use This System

Jumpbooster's referral system is designed to support Business Partners with a scalable, low-risk business model.

Through this system, Business Partners can:

- Offer Jumpbooster's full product range without holding inventory

- Earn **ongoing store credits** from every purchase made by linked customers
 - Use accumulated credits to **purchase Jumpbooster stock**
 - Build long-term value from customer relationships beyond individual sales
-

Compliance & Legal Notes

- Business Partners must comply with all applicable advertising, consumer, and competition laws
- Promotions must be represented accurately and in line with Jumpbooster guidelines
- Jumpbooster retains ownership of its brand, pricing structures, and promotional material
- Misuse of referral links or codes may result in suspension or termination of the Business Partner account

This document forms part of the Business Partner onboarding material and should be read in conjunction with Jumpbooster's full Business Partner Terms and Conditions.

Closing

Jumpbooster values strong, transparent partnerships and looks forward to working collaboratively with its Business Partners to achieve mutual growth.

Kind Regards
Mark Bygrave
